Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/680,959	Applicant(s) KNOX ET AL.	
	Examiner Rosanne Kosson	Art Unit 1651	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on October 7, 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to a method of protecting normal cells from radiation damage, classified in class 435, subclass 325.
- II. Claims 9-11, drawn to a method for identifying an agent as a radioprotective agent, classified in class 435, subclass 29.

The inventions of Groups I and II are materially distinct methods which differ at least in objectives, method steps and reagents used. Group I is directed to a method of protecting normal cells from radiation, while Group II is directed to a method of identifying a radioprotective agent. Because the search required for one group is not required for the other group, and because these groups fall into two different search classes, an undue burden of search is created.

Inventions I and II are unrelated processes. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and that they have different modes of operation, different functions, or different effects (see MPEP §806.04 and §808.01). Clearly, the method of Group I, for maintaining cell viability, and the method of Group II, for identifying new radioprotective agents, have different modes of operation, functions and effects.

Art Unit: 1651

Because these inventions are distinct for the reasons give above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call was made to Applicants' representative, Ms. Pamela Sherwood, on May 11, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rosanne Kosson whose telephone number is 571-272-2923. The examiner can normally be reached on Monday-Friday, 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Wityshyn can be reached on 571-272-0926. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
